## Hydrangeas

The Longest Blooming Shrubs

subject to availability

### **Hydrangea macrophylla** ☀️ ●

*Bigleaf Mophead & Lacecap* –

*morning sun, afternoon shade, even moisture, water 1-2x week.*

*Flowers will attain best blue tint in acidic soils, or pink in neutral to alkaline soils*

#### **Bloomstruck** mophead Z4

3-4'h x 4-5'w. Rebloomer, flowers measure 3.5-5" all summer long, the Endless Summer Color Kit gives you the ability to change the bloom color from rose pink, violet or blue.

#### **Blushing Bride** mophead Z4

3-4'. White reblooming flowers that develop a light blue or pink blush - on new and old wood.

#### **Blue Enchantress** mophead Z4

3-5'. Striking ruby-black stems support big flowers, reblooming. Blue in acidic soils and pink in more alkaline soils aging to cream-splashed green color.

#### **Blue Wave** mophead Z6

5'. Prized for its reliable blue flower color in most garden soils without the addition of aluminum sulfate.

#### **Seaside Serenade Cape Cod** mophead Z4

4'. A new classic for small spaces! Hardy, repeat blooming, big flowers, extra-dark green leaves, and a neat, mounded form.

#### **Coerulea** lacecap Z4

6 x 8'. The tiny center flowers of this lacecap are deep blue while the large outer ray petals of light blue that have aged from white. Enormous flower clusters to 8" across, bloom in summer to first hard frost.

#### **Endless Summer' (Original)** mophead Z4

4-5'. Large pink or blue flowers bloom on new and old wood.

#### **Seaside Serenade Outer Banks** lacecap Z4

4'. Compact hydrangea. Repeat bloomer, ideal for shade. Blue in acidic soils, more pink in neutral to alkaline soils.

#### **Peace** mophead Z4

3'x 3'. White petals age to slight tint of pink. Multiple whorls of sepals give the appearance of 'double flowers'.

#### **Rhythmic Blue** mophead Z4

Large, vividly rich pink in alkaline soil, but can easily be transitioned to one of the richest, most vibrant blues in acidic soil.

#### **Twist n Shout** lacecap Z4

3-5'. Mixture of big deep pink and startling blue flowers, maroon-red stems. Deep maroon-red fall foliage.

#### **Wedding Gown** mophead / lacecap Z5

2-3'. Double blooms with super strong stems on a nice mounded form. Blooms start out as mopheads and open into lacecaps.

### **Hydrangea Vine** ☀️

*Hydrangea Vine* Z5

#### **Anomala petiolaris**

The Queen of Vines, great in part shade conditions, showy 6-10" diameter, white flowers, exfoliating bark, dark foliage.

#### **Schizophragma hydrangeoides**

Showy small creamy-white, flower-heads resembling lacecap hydrangea.

### **Hydrangea arborescens** ☀️

*Smooth Hydrangeas, part shade.*

Nice understory plant, fertile flowers provide key nectar source for pollinators and essential cover for birds, best in morning sun or part shade, prune hard in fall to rejuvenate bigger and better the following spring.

#### **Annabelle** Z3

3-5'. Creamy white flowers, coarse dark green foliage, very hardy. Blooms late spring to summer, often continuing into fall. Strong, straight stems hold the huge flower heads up well, despite heavy rain.

#### **Incrediball** Z3

4-5'. Flowers open green, mature to white before fading to green again. Very sturdy stems hold blooms upright even if soaked with rain. Very cold hardy shrub blooms on new growth, so even very cold winters won't keep it from blooming.

## Hydrangeas cont.

subject to availability

### **Hydrangea serrata**

*Mountain Hydrangea*

**Blue Bird** lacecap Z5

4-6'. Spectacular bloom has a ring of sea-blue sterile florets surrounding a large cluster of rich blue fertile flowers. Blooms in early summer on old wood.

**Seaside Serenade Cape May** lacecap Z4

3'. Very large blooms stand tall, supported by strong, extra thick stems. Flowers will be blue in acidic soils, and more pink in neutral to alkaline soils. Compact mounded form.

**Tiny Tuff Stuff** Z5

18-24". Compact version of Tuff Stuff.

**Tuff Stuff** lacecap Z5A

3 x 3'. Semi-double to double florets begin with creamy coloration in the center before maturing to intense reddish-pink. Flowers may shift to blue in acidic soils.

### **Hydrangea paniculata**

*Pee Gee Hydrangeas*

**Bobo** Z4

3' h & w. Compact variety good for small spaces. White flowers turn pink late summer to fall.

**Confetti** Z4

3' x 4'. Conical flowers white with pink - green. Hardy & vigorous.

**Diamond Rouge** Z3

4 - 5'. Conical white flowers pink with progression of aging flowers to raspberry-red to wine-red.

**Limelight** & tree form Z3

6-8'. Unique chartreuse blooms in mid-summer that change to pink in fall. Good massed, as a hedge, in containers or as a cut flower.

**Little Lime** Z4

5' h & w. Same soft green flowers as Limelight, but in a compact form.

**Little Quickfire**

3-5'. Dwarf version of Quickfire, flowering about a month before other hydrangeas. White flowers transform to pink-red as summer progresses.

**Pinky Winky** Z4

6-8'. Like its parent Pink Diamond but with fuller, thicker flowers and gradient shading of pink to white on the flowers.

**Quickfire** treeform Z3

8' x 6'. Flower heads open white before most hydrangeas even begin blooming. Turning pink-red thru summer. Orange-red fall color.

**Strawberry Sundae** Z4

5' x 4'. Flowers open to creamy white then turn overall to pink, then deep red in fall.

**Vanilla Strawberry & tree form** Z4

8' x 8'. Resembling the old fashioned PeeGee Hydrangea, but flowers stand up better in late summer storms. Very full flower heads that begin white, then turn rose-pink late summer.

### **Hydrangea quercifolia**

*Oakleaf Hydrangea*

**Gatsby Star** Z5

5-6' h & w. Native, white flowers turn pink in fall, burgundy fall foliage.

**Snow Queen** Z5

5'. White conical flowers, burgundy fall color.
